

LOSS CONTROL AGREEMENT

Your insurance agent submitted an application for a workers' compensation quote. We have an A rated insurance carrier interested in reviewing your operation further in order to consider offering a quote.

The carrier is American Interstate Insurance Company. They specialize in construction among other harder to place accounts. They have an effective and proven strategy of choosing the best businesses to write their workers' compensation.

The carrier will want to do a pre-quote loss control safety visit to meet with the owner and observe the employees working. Their goal is simply to confirm that the employees know and follow standard safety protocols.

Are you willing to cooperate with the loss control safety visit? It does not take much time but helps the carrier have a much better understanding of the risk they are considering.

If you are willing to allow the carrier to contact you to schedule a worksite visit, please complete and sign the below:

Yes, please have the carrier contact me to schedule a worksite visit.

Name of your company: _____

Printed Name of Office

Signature of Officer

Date Signed

Best phone # to call

If the carrier offers a quote, you have no obligation to accept the quote. There is no charge to you for the loss control safety visit.
