B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from these estimates.

C. Accounting Policies

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods over the term of the policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, premium taxes and assessments are charged to operations as the written premium is recorded. Such expenses are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- 1. Short-term investments are stated at amortized cost using the interest method.
- 2. Bonds are stated at amortized cost using the interest method.
- 3. Common stocks at market.
- 4. Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32.
- 5. Mortgage loans on real estate are stated at the aggregate carrying value less accrued interest.
- 6. Loan-backed securities are stated at amortized cost using the interest method.
- 7. Investments in subsidiaries are recorded at statutory equity. There are no investments in controlled and affiliated companies.
- 8. There are no investments in joint ventures, partnerships and limited liability companies.
- 9. There are no derivative investments.
- 10. The Company does not anticipate investment income as a factor in premium deficiency calculations.
- 11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- 12. The Company's policy is to capitalize amounts in excess of \$1,000.
- 13. There are no pharmaceutical rebate receivables.

D. Going Concern

Based on management's evaluation, the Company does not believe there to be substantial doubt about the entity's ability to continue as a going concern.

B. Assessments

The Company is subject to assessments by the Florida Workers' Compensation Insurance Guaranty Association ("FWCIGA"), the Special Disability Trust Fund ("SDTF"), the Workers Compensation Administrative Trust ("WCATF"), and the Florida Insurance Guaranty Association ("FIGA"). The activities of FWCIGA include collecting funds from solvent insurance companies. The SDTF is a fund created to encourage employers to hire individuals with pre-existing physical impairments by spreading the increased risk of the workers compensation losses and costs associated with such employment. The WCATF covers the costs of administering the Florida workers' compensation system. The Company's policy is to recognize its obligation for assessments when the Company has the information available to reasonably estimate its liabilities. Most assessments are paid quarterly based on premiums written or earned.

As of September 30, 2022, the Company has accrued a liability for guaranty fund and other assessments of \$ 226,625. This represents management's best estimate based on information received from the states in which the Company writes business and may change due to many factors including the Company's share of the ultimate cost of current insolvencies.

The Company routinely assesses the collectability of these receivables. Based upon Company experience, any uncollectible premiums receivable as of September 30,2022, are not expected to exceed the non-admitted amounts totaling \$3,485,266 of which \$313,894 represents 10% of the earned but unbilled estimate as required by the NAIC Accounting Policy and Procedures Manual, and, therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.
