The above schedule is subject to change without notice. This schedule does not reflect commissions for other lines we may have written in the past. We maintain all business regardless of line, but we now only write workers' compensation. Our commissions are paid as paid and are fully dependent upon the carriers releasing accurate and timely commissions to us. We proudly pay your commission on time every month on the 25th day. Any commissions found to be overpaid will result in charge backs on your commission statement.
